

BASICS Scotland
15th Annual Conference
The Carnoustie Golf Hotel
Saturday 9th September 2017

It takes a system

**to Save A
Life!**

Programme

08:45 – 09:00	Registration & Tea/Coffee			
09:00 – 09:10	Chairman's Welcome - Dr Catrina Hewitt			
09:10 – 09:30	BASICS Scotland Introduction & Overview Professor Colville Laird, Dr Richard Price and Dr Ben Price			
09:30 – 10:00	Scotland's Trauma System Dr Dave Caesar, Scottish Government			
10:00 – 10:30	Sandpiper Wildcat – The Story so Far.....! Keri Fickling, Lorna Donaldson & Keith Jensen, The Sandpiper Wildcat Team			
10:30 – 11:00	Tea & Coffee at Exhibitor Stands			
11:00 - 11:30	Human Factors & Responder Welfare Angela Lewis			
11:30 – 12:15	Case Study Discussions - 10 mins to present & 5 mins Q & A Chaired by Professor James Ferguson Peer Panel – Dr David Hogg, Dr David Cooper & Dr Iain Craighead			
12:15 – 13:15	Lunch – Tea & Coffee at Exhibitor Stands (AGM 12:15 - 12:30 for BASICS Scotland Members)			
13:15 – 13:45	Pre Hospital – topic to be confirmed Greg Gibson, Senior Medical Educator for Royal Australian College of General Practitioners			
	Workshop 1 – Traumatic Cardiac Arrest – Mr Dave Bywater Workshop 2 – Pre-Hospital Airways (NANO) – Ben Shippey Workshop 3 – RNLI (Submersion/Drowning) – Paul Castle Workshop 4 – New Clinical Response Model for Scotland – SAS, Stephanie Jones			
13:45 - 14:15	Workshop 1	Workshop 2	Workshop 3	Workshop 4
14:15 – 14:45	Workshop 4	Workshop 1	Workshop 2	Workshop 3
14:45 – 15:15	Workshop 3	Workshop 4	Workshop 1	Workshop 2
15:15 – 15:45	Workshop 2	Workshop 3	Workshop 4	Workshop 1
15:45 - 16:10	Tea & Coffee at Exhibitor Stands			
16:10 – 16:40	BASICS – Can we do it differently? Paul Aitken-Fell and Dan Haworth			
16:40 – 17:10	Keynote Speaker – GP's Role in Contributing to System-wide Change Dr Gregor Smith, Deputy CMO, Scottish Government			
17:10 – 17:30	Chairman's Thanks & Close Mr Dave Bywater			

* Programme subject to change

The BASICS Scotland Annual Conference brings together leading experts in the field of pre-hospital care to discuss the central issues and current challenges facing Scotland and the UK today.

The conference will be of particular interest to all pre-hospital and remote healthcare professionals in Scotland and the UK.

Speaker Biographies

Keynote Speaker

Dr Gregor Smith is proud to be a GP and was appointed Deputy Chief Medical Officer for Scotland in October 2015. Prior to this he combined roles as a Senior Medical Officer in the Scottish Government and medical director for Primary Care in NHS Lanarkshire. He spent most of his clinical career as a GP in Larkhall, Lanarkshire and is an Honorary Clinical Associate Professor at the University of Glasgow and Fellow of the Scottish Patient Safety Programme. He is passionate about continuous quality improvement and innovation in healthcare, with a particular interest in person-centred care, shared decision making and working in teams. He is a resolute advocate of the values that define our NHS, of universal healthcare, and of widening access to medical careers to those from all backgrounds. When not working, he tries very hard, but not so successfully, to use his quality improvement skills to improve his cycling, triathlon and guitar.

Dr. David Ceasar - David was appointed as National Clinical Advisor to the Chief Medical Officer (Scotland) in February 2016, advising on secondary care services including Major Trauma, as well as engaging with the clinical workforce and civil service on the National Clinical Strategy, Realistic Medicine, workforce issues and medical leadership. He continues to work a full on-call rota at the Emergency Department in the Royal Infirmary of Edinburgh, where he has previously been the Training Programme Director and Clinical Director. Prior to taking up his current role in the Scottish Government, he was Associate Medical Director at the Western General Hospital in Edinburgh. His current portfolio affords him some time away from being out-negotiated by his 3 small children.

The Sandpiper Wildcat Project Team is made up of Keri Fickling – Project Manager, Keith Jensen – Project Facilitator, Lorna Donaldson – Project Facilitator. All 3 are currently on secondment to The Sandpiper Trust from The Scottish Ambulance Service. Between them they have over 60 years' front line Ambulance experience.

Angela Lewis - Angela is the founder and director of PSA, a company that delivers training in the principles and practice of Human Factors (Crew Resource Management for the aviation industry). Her goal is to optimise human performance by considering the behaviour of people and how they interact with each other and their environment. A CAA accredited CRM instructor, Angela brings people to a better understanding of their own limitations in order to minimise human error and mitigate its negative consequences in high pressure situations. Angela served 16 years in the Royal Navy in the Fleet Air Arm, where she was an aircraft commander in Sea King Helicopters with primary responsibility for the mission and safety, in addition to the duties of navigation, winch operator/winchman and emergency medical technician. Trained in Trauma Risk Management (TRiM) and Critical Incident Stress Management, she has a wide understanding of peer support and has trained Mountain Rescue Scotland in creating a team of MRT volunteers in order to do exactly that. Recently she has been working with ScotSTAR Emergency Medical Retrieval Service as well as West Yorkshire Police, the British Association of Ski Patrollers and Airport Fire Officers Association as well as adapting the principles for use in an education environment.

Greg Gibson - Greg commenced his Ambulance career in 1978 and is currently a Group Manager with Ambulance Victoria. He completed his Mobile Intensive Care Ambulance (MICA) qualifications in 1988 and holds a Graduate Diploma in Health Administration. During his career he has held positions including Flight Paramedic for Victoria Air Ambulance and OMEGA, Group Manager of Clinical Support/Quality Assurance for Metropolitan Ambulance Service, Course Coordinator of the Advanced Clinical Training Program for Queensland Ambulance Service, Tactical Operations Supervisor for Tasmanian Ambulance Service, Lecturer at the Monash University Department of Community Emergency Health and Paramedic Practice, Senior Medical Educator – RACGP Clinical Emergency Management program and Member of the National Medical Advisory Committee – Confederation of Australian Motor Sport (CAMS). As a Flight Paramedic with OMEGA, he has travelled extensively overseas repatriating Australian tourists who have been injured or become ill whilst travelling. Greg was also on the third AusAid Medical Team to the Indian Ocean Tsunami in 2005. He has been a keynote Speaker at Emergency Medicine conferences in USA, Taiwan, and Australia.

Paul Aitken-Fell - Paul is the the Lead Consultant Paramedic for the North East Ambulance Service NHS Foundation Trust. He is an active member of the Critical Care Response unit with a tertiary response to all Critical Care Cases in the Trust. He has the strategic responsibility for developing and implementing the Trusts Cardiac Arrest Strategy and has a particular interest in Advanced Paramedic systems including cardiac arrest management. Paul is also the Clinical Director for the BANE Basics scheme in the North East of England and the Chair of the College of Paramedics Consultant Group.

Dan Haworth (North East Ambulance Service) - Dan is a Paramedic and Clinical Effectiveness Manager for the North East Ambulance Service NHS Foundation Trust and is an active member of the cardiac arrest response unit. He has over 15 years' experience of providing pre-hospital care within UK ambulance services working as a Paramedic, team leader and clinical educator. He has a particular interest in how we can use data to improve the quality of care provided during resuscitation.

Workshops

Dr Benjamin Shippey - Dr Shippey is a graduate of the University of Nottingham medical school who trained first as a physician in the Midlands, then subsequently as an anaesthetist and intensivist in South East Scotland. He has collaborated with simulation centres in the Netherlands and Germany to produce a high-fidelity simulation resource for the European Society of Intensive Care Medicine, and sat on the steering group which implemented the Competency-Based training in Intensive Care Medicine in Europe (CoBaTrICE) project. He has lectured on simulation, and assessment, and has published book chapters and journal articles on the principles and practice of simulation based learning. Dr Shippey was the Royal College of Anaesthetists College Tutor In NHS Fife, and for the last two years has been the RCoA Lead Tutor. He is currently involved with the development of a curriculum for peri-operative medicine. In September 2014 Dr Shippey took up his post as Director of Clinical Skills and looks forward to developing and expanding the activities of the Clinical Skills Centre, with a focus on non-technical skills, mastery learning of procedural skills, and postgraduate training.

Stephanie Jones (SAS) - Stephanie has worked in the ambulance service for the past 11 years. She started in the East ACC as a call handler, dispatcher and then supervisor before becoming a technician and then paramedic at Dunfermline station. For the last year she has been working on the Scottish Ambulance Service New Clinical Response Model which gives her the opportunity to understand what each patient needs and send the right help first time every time. Highlights of her career so far have been working at the Commonwealth Games and being awarded a BSc in Urgent and Emergency Care earlier this year. When not at work (which isn't very often!) Stephanie can usually be found up a mountain skiing or out and about in Edinburgh.

Dave Bywater (SAS / Vice Chairperson BASICS Scotland) - Dave joined the Scottish Ambulance Service in 1996. He has extensive experience in working in urban, remote and rural regions. Dave has worked across all areas of the service. In his current role as Consultant Paramedic, he is the lead for the Scottish Ambulance Services commitments to the National Out of Hospital Cardiac Arrest Strategy. Dave is an experienced pre-hospital emergency care instructor, teaching regularly on both adult and paediatric courses. He is the Vice Chair of BASICS Scotland and a course director for the ERA in Scotland 2016 & 2017.

Case Study Discussions / Peer Panel

Professor James Ferguson was born in Aberdeen and educated at Robert Gordon's College and Aberdeen University, graduating in Medicine in 1983. Basic Surgical Training was undertaken in Aberdeen, progressing to Accident and Emergency Registrar training in Consultant in Accident and Emergency Medicine with a specialist interest in Paediatric Accident and Emergency in 1994. He is a visiting Professor to the Robert Gordon University and a reader in Emergency Medicine with Aberdeen University. He is retained by Eon Productions as a Medical Advisor. In 2006, he was seconded on a half time basis as National Clinical Lead to the newly established Scottish Centre for TeleHealth (SCT). Currently, the Scottish Centre for Telehealth and Telecare (SCTT) is implementing a range of national programmes.

Dr David Hogg - David is a GP on the Isle of Arran, Scotland. He has interests in emergency care, mental health and child health. He is lead for IT, patient access and undergraduate teaching at Arran Medical Group. David is a member of Arran Mountain Rescue Team and Honorary Senior Clinical Lecturer in Remote & Rural Medicine at Glasgow University. He is Editor of RuralGP.com, member of the RCGP Scottish Council and Chair of the Rural GP Association of Scotland.

Dr David Cooper - David Cooper is a full-time GP partner at the Old Machar Medical Practice in Aberdeen. He graduated from Aberdeen University in 1997 and trained as a GP, entering partnership at Old Machar in 2002. Over the last 15 years he has developed many interests including GP Minor Surgery, Primary Care IT, and medical education. He is chair of the NHS Grampian Primary IMT group, Executive Member of the Scottish National Users Group, and sits on a variety of NHS Grampian and NHS Scotland IT steering and advisory groups. He is the clinical lead for Aberdeen City CHP minor surgery service, and has been a GP trainer since 2006. He is also involved in undergraduate medical teaching and has recently taken on the position of Senior Clinical Lecturer for Aberdeen University. He was awarded a Fellowship of the Royal College of GPs in 2012 in recognition of his training and pre-hospital work. David has been an enthusiastic and active BASICS Scotland responder since 2004 and a BASICS instructor since 2009. He is the vice chair of the Grampian Immediate Care Scheme. Outside of Medicine he is a keen musician, playing cornet in the local brass band where he is also the bandmaster and chairman. He has a very understanding wife and 2 children – Katie and Sophie.

Dr Iain Craighead - Iain is a GP & BASICS responder working in Dingwall, Ross-shire. In his spare time he acts as the crowd doctor for Ross County football club where he rarely sees a patient but experiences moments of great elation and profound depression over the course of the same afternoon. Over the last 25 years he is fortunate to have been a GP trainee in the A & E department in Aberdeen under the wise tutelage of Mr James Ferguson and to have worked for 8 years in Kirkwall alongside Dr Kirsty Cole where he started BASICS responding in 2014. Prior to this he worked as the medical lead in a leprosy and rehabilitation hospital in Pokhara, Nepal providing rehabilitation for civilians and Maoist insurgents during the civil war.

BASICS Scotland

Dr Catrina Hewitt (Chairperson BASICS Scotland) - Catrina is a part time GP in Dunkeld and is an BASICS Scotland Instructor. At the weekends, Catrina can be found walking, running, cycling and socialising with friends and family.

Professor Colville Laird (Medical Director BASICS Scotland) - As well as being involved with BASICS Scotland since 1993, Colville was a GP in Auchterarder for 32 years during which he was actively involved in immediate care. He is immediate past Chair of the Faculty of Pre-Hospital Care at the Royal College of Surgeons of Edinburgh, medical adviser to the Sandpiper Trust and was previously an Associate Editor of the Emergency Medicine Journal. He is an honorary professor at the University of Central Lancashire.

Dr Richard Price (Assistant Clinical Director - BASICS Scotland) - Richard is a Consultant in Anaesthesia and Intensive Care Medicine at the Royal Alexandra Hospital, Paisley and with the Emergency Medical Retrieval Service. He teaches on several BASICS courses and leads the Clinical Governance working group. Richard officially took up his role as Assistant Clinical Director in October 2016.

Dr Ben Price (Assistant Clinical Director - BASICS Scotland) - Ben is a GP in Perthshire having previously worked in remote and rural general practice in Speyside and NHS Highland. He has particular interests in promoting rural GP and the role of the generalist as well as pre-hospital urgent and emergency care. He is a BASICS responder and regularly teaches with BASICS Scotland on adult and paediatric courses. When not working he is usually to be found enjoying the outdoors; running, cycling or just exploring and seeing his family grow up. Ben officially took up his role as Assistant Clinical Director in October 2016.

Delegate Rates 2017

BASICS Scotland Members

Doctors	£60
Allied Health Professions (Nurses, Paramedics)	£40
Full Time Students	£20

BASICS Scotland Non-Members

Doctors	£75
Allied Health Professions (Nurses, Paramedics)	£50
Full Time Students	£25

Why not make a weekend of it!

Friday Night Drinks Reception and Speaker

Some of you may know Mike Langran who has been a key supporter of BASICS Scotland for many years.

In 2013, Mike and his family left Scotland to move to the Australian outback town of Broken Hill. For the next 3 and a half years he realised his dream of working for the Royal Flying Doctor Service. Since December 2016, Mike has been working as a remote GP for an aboriginal health organisation in far northwest South Australia. Mike's interest in emergency care continues to develop and this presentation will cover his Australian experiences and the challenges faced in delivering emergency medical services in the remote outback of Australia.

Saturday Night Dinner and Ceilidh

Included in our accommodation packages is an invitation to our dinner and ceilidh on the Saturday night.

The fantastic five piece band "Sporran Again" will be providing the music for the evening.

Quoted on their website as being one-of-a-kind, amazingly stylish, superbly funky, and just all around awesome ceilidh band.

Accommodation

BASICS Scotland is delighted to be able to offer conference delegates discounted rates for hotel accommodation.

Carnoustie Golf Hotel offers extensive facilities including 81 luxury en suite bedrooms and ten suites with amazing views over the Championship course, the sea and the local town of Carnoustie. Extensive spa and health facilities include a large heated swimming pool, sauna, whirlpool, steam room and for the more energetic a fully equipped gymnasium.

Make sure you book early to secure a room!

Prices

Friday 8th September Bed & Breakfast

Single Occupancy	£90
Double Occupancy	£105
Optional 3 course buffet dinner	£18 pp

Saturday 9th September Dinner, Bed & Breakfast (incl wine and evening ceilidh)

Single Occupancy	£114
Double Occupancy	£153

Want to bring the family? - Family rooms are available at no extra cost for accommodation. Costs for children's breakfast & meal will be £17.45 per child.

Sponsors

BASICS Scotland are very appreciative of the support that our sponsors give us to make the conference a success and we are pleased that the following sponsors will be holding a stand at the conference

BASICS Scotland Courses

Face-to-Face Courses

Throughout the year we hold Face-to-Face courses all over Scotland including the Highlands & Islands.

These include:

Pre-hospital Emergency Care (PHEC)

Pre-hospital Paediatric Life Support (PHPLS)

Hospital Major Incident Medical Management Systems (HMIMMS)

Major Incident Medical Management and Support (MIMMS)

These courses are available to doctors, registered paramedics, nurses and resuscitation training officers.

BASICS Scotland has been providing a wide variety of courses since 1993 aimed at the pre-hospital emergency care provider / responder in Scotland. Our courses are of the highest quality; evidence based and are taught by multi disciplinary experts.

Tele-education Courses

This course is primarily for doctors, nurses & paramedics delivering care in the pre-hospital environment.

BASICS Scotland provide two types of Tele-education courses which are Paediatric and Adult Emergency Medical Care

New evidence based topics are delivered by weekly 1 hour sessions over 9 weeks for the paediatric course and 10 weeks for the adult course. These are presented live through our internet based video conference system using Adobe Connect which can be accessed anywhere in the world that you have a computer with an internet connection.

Remote Skills Training

Innovative solution for remote practitioners; our Remote Skills Training courses enable candidates to connect simultaneously from multiple sites and gain valuable hands-on skills training in pre-hospital emergencies from the comfort of their own home/workplace.

Thanks to funding by NES (NHS Education Scotland) and The Sandpiper Trust, we have been able to create what we call Training Pods which contain all the necessary equipment needed to participate in one of our courses.
